## **Mystic Warrior: Visionary Fiction or the Way the World Operates?**

*“The political, economic and spiritual setting for **Mystic Warrior** is not really visionary,” says author Edwin Harkness Spina, “This is the way the world operates—it’s just that few people actually know it. ...Awareness of this reality is the first step to mastery.”*

(PRWEB) June 2, 2005 -- ***Mystic Warrior: A Novel Beyond Time and Space*** will be named the winner of the 2005 Independent Publisher Book Award for Visionary Fiction at the 9th Annual IPPY Awards Celebration June 3rd during BookExpo America.

Edwin Harkness Spina’s provocative spiritual novel reads like ***The Bourne Identity*** meets ***The Celestine Prophecy***, as he takes the reader on a thrilling adventure of a struggling entrepreneur caught up in political and foreign intrigue. “The political, economic and spiritual setting for ***Mystic Warrior*** is not really visionary,” says Spina, “This is the way the world operates—it’s just that few people actually know it.” Much of the book draws from Spina’s experience in the venture capital arena and his personal involvement in mysticism.

The characters in ***Mystic Warrior*** possess and wield extraordinary psychic abilities such as telepathy, remote viewing and astral projection.

The hero must develop his own psychic skills to compete in a world where his previous beliefs about time, space and human limitations no longer apply.

***Mystic Warrior*** is a contemporary spiritual thriller that provides meaning, insight and hope for a humanity struggling to find spiritual solutions to today’s problems.

Since time immemorial, there have been stories, legends and rumors of secret societies that help initiates to develop mystical and supernatural skills. Dan Brown, author of the current N.Y. Times best-seller, ***The DaVinci Code***, references one group, the Illuminati, as “one of the most powerful unseen forces in global politics.” According to Spina, “the characters in ***Mystic Warrior*** practice the same mystical skills taught in these secret societies. Awareness of this reality is the first step to mastery.”

Spina has earned an MBA from the University of Chicago, a BSE from Tufts University and has been studying and practicing mysticism for many years.
